Objective:

As an -----

Education:

- Bachelor of Science in Computer Science
University of XYZ, City, State
Graduation Date: May 2024
Relevant Coursework:
- Data Structures and Algorithms
Object-Oriented Programming
Database Management Systems
Web Development
Software Engineering
GPA: 3.8/4.0

Technical Skills:

- Programming Languages : Java, Python, C Programming
- Web Development : HTML, CSS, JavaScript
- Database Management System(DBMS) : SQL(Structured Query Language)
- Robotic Process Automation (RPA): UiPath

Projects:

1. Online Bookstore Website
Developed an online bookstore using HTML, CSS, JavaScript, and PHP.
Implemented user authentication, database management, and payment processing.
Deployed the website for real-world testing on a cloud platform.
2. Machine Learning Sentiment Analysis
Analyzed Twitter data for sentiment using Python and machine learning.
Achieved over 85% accuracy with model evaluation and fine-tuning.
3. IoT Smart Home Automation System
Designed a smart home system with Raspberry Pi and Arduino.
Integrated sensors and developed a web dashboard for remote control.
4. E-commerce Mobile App Prototype
Led a team to prototype an e-commerce app using Figma.
Conducted user research, created wireframes, and received positive feedback.

Certifications:

- Python for Data Science and ML (Udemy) - Aug 2023
- Full-Stack Web Dev with React (Coursera) - Jun 2022
- Deep Learning Specialization (Coursera) - May 2022
- SQL for Data Science (DataCamp) - Apr 2022
